Billions wasted

Re: *Engineers united on east side* (Dec. 8). Ever since my husband and I moved to Manitoba in 1975, we have consistently voted NDP. We are deeply disappointed, however, in the present NDP government for not listening to the experts, as well as the voice of Manitoba people, and not building Bipole III on the east side of Lake Winnipeg, thus wasting billions of dollars.

That money could well be spent on our health care and other badly needed services. Wake up, Greg Selinger, and think for yourself instead of carrying out the wishes of the former premier who decided to abandon us for better horizons.

MARILYN WARREN
